1. The Finality of the previous office action of 27 May 2005 is hereby

WITHDRAWN.

2. Claims 3-8 are allowable over the prior art of record.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

On lines 3-4 of independent claim 1, the language is mis-descriptive of the disclosed invention in that the language states that plasma is discharged over two portions of the outer surface of the missile: "a limited sector of the outer surface of the nose" and "on the side of direction Y." In contrast, section [0023] on page 3 of the Specification of the instant application states that the plasma is discharged "over a limited sector 8 of the outer surface of the nose on the side of direction Y."

Dependent claim 2 is unclear in that it depends from unclear independent claim 1.

5. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
6. Claim 2 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
